SAMOA LAW REFORM COMMISSION
Komisi o le Toefuataiga o Tulàfono a Samoa

Talofa lava,

As you may be aware, the Samoa Law Reform Commission (“LRC”) has been established. The LRC considers that you have a significant role to play in the reforming and reviewing of Samoa’s laws.

The LRC is in the process of establishing a database of stakeholders who will be consulted in the reform or review of particular areas of law.

We have included in this correspondence, a list of areas which you may have an interest in. when reform or review is then commenced in your particular area of interest, you will be asked for your opinion and views.

If you are not on our database, you may then miss out on the opportunity to express your views and have a say in how the law is reformed or reviewed. As we are a new Commission, we are establishing a system to assist us to be in touch with all the stakeholders.

We would appreciate you taking a minute out of your time to complete the following form, and then return it or fax it to the Office of the Samoa Law Reform Commission on the Ground Level of the Government Building. The form is basically asking you to tick the areas in which you may have an interest so that any reform in that particular area/s will involve your input.

LRC can be contacted through the phone numbers 28493 or 28494 and fax number 28495.

We thank you for your time and await to hear from you soon.

Ma lo’u fa’aaloalo lava

Leilani Tuala-Warren
EXECUTIVE DIRECTOR
